The independence of managers of audit firms, auditors, employees and other persons providing services for the benefit of, or under the control of, the key audit partner or the audit firm, or any other person directly or indirectly linked to the key audit partner or the audit firm by control shall also be assessed.

If, during the period covered by the financial statements, an audited entity is acquired by, merges with, or

acquires another entity, the auditor or the audit firm shall evaluate any current or recent interests or relationships, including any non-audit services provided to that entity, which, taking into account available safeguards, could compromise the auditor's independence and ability to continue with the audit after the effective date of the merger or acquisition.

As soon as possible, and in any event within three months from the date of entry into effect of the merger or take-over, the auditor or the audit firm shall take all such steps as may be necessary to terminate any existing interests or relationships that would compromise the auditor's independence and shall, where possible, adopt safeguards to minimise any threat to its independence arising from prior and current interests and relationships.
